

# Attessa

# ROKSAN

Where performance and intuitive design meet.

Our all-new Attessa range, fully developed in-house in the UK, features market leading streaming technology, class-leading performance and beautiful industrial design.

Utilising over 35 years of experience in musical excellence, Attessa delivers a powerful performance for audio enthusiasts and accessibility for new audiences.

Attessa Integrated & CD Transport Amplifier in Silver

Attessa Streaming & CD Transport Amplifier in Black

Attessa Range in Black

# Atessa

Great Hi-Fi is incredibly intricate, precise and complex. Fortunately, achieving it can be simple. For the Atessa range, we've used our wealth of technical expertise to deliver lifelike sound with all the depth and quality you could wish for. Yet we've managed this in a minimalist, intuitive design that couldn't be simpler to use.

Minimalistic control dial provides both volume and source selection with a graphical interface and haptic feedback for confirmation.

3 presets are available from the UI carousel, allowing rapid access to your favourites; create playlists from BluOS or simply a preferred source, you choose.

New amplifier architecture building with Roksan DNA. Clean clear dynamics with a sense of power and scale. Creating the perfect blend of a modern technology-forward design whilst retaining the world-renowned Roksan sound.
